Phase THREE
A ten-dome Village:
“Water-Trails”
Phase ONE
A three-dome Village:
“Waterfront”
Griffins Lake
Bay St Lawrence Rd
Bay St Lawrence Rd
The
PAVILION
Entrance
&
Parking

The entire North Shore Nature Centre and surrounding area.

The Lake, affectionately known as “Loch Ness” in honour of that mythical creature.

"Loch Ness" near where that first one of the North Shore Nature Centre's dome villages will be located.

Looking the other way from “Loch Ness”: mountain views and massive oak, maple, birch and pine trees.

The North Shore Nature Centre has many geological features that put this area's moraine-based origins on full display.

There is an extensive trail system throughout the North Shore Nature Centre.

It would take days to walk them all AND experience the multitude of geographical features.

The North Shore Nature Centre's Neighbours

The Investor Page

Hi, I am Webster, Fulfilment Manager for Tsplits PMC.

The North Shore Nature Centre has asked us to identify value added opportunities that go beyond real estate value, natural beauty and conservation. We suggest two possibilities:

- Off grid Dome Villages in three locations, each with a different learning objective and focus as pertaining to environment, experience and adventure.
- A water bottling plant fed by a pure mountain spring that produces the most delicious spring water imaginable, 365 days a year, 24 hours a day.

To finance both ventures we suggest tokenization, because that leaves the underlying real estate untouched, yet the LLC investment layer is almost unlimited in its capacity to raise capital.

Of course, tokenization would require the completion of a legal process that further defines opportunity, timing and splits. We can help with that…!

Webster M.
